

TECHNICAL DATA SHEET - LAWELL

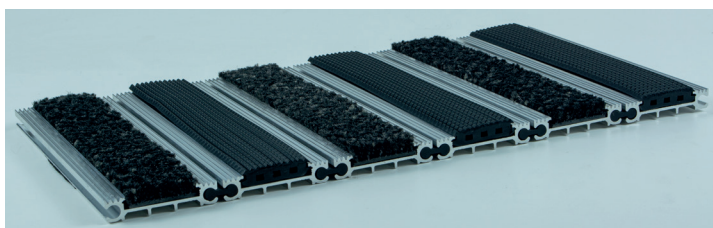

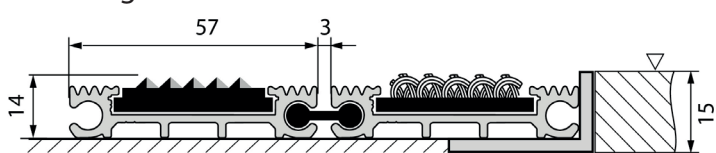

This is a self-supporting mat, where the base is made of wide grooved aluminium profiles connected by a flexible profile, which allows the mat to be rolled up. The aluminium profiles are assembled either with a grooved PVC strip for coarse dirt or with a textile strip for fine dirt and water.

High load-bearing capacity!

textile / grooved PVC - wide version

textile / grooved PVC - narrow version

Technical parameters

Design:	grooved PVC strip, textile strip
Dimensions:	according to the customer's requirements, the length is always adapted to the width of the aluminium strip – 57 mm. For the chosen length, a rubber end profile is used to guarantee the exact length of the mat.
Height:	14 mm
Weight:	grooved PVC strip - 15 kg/m ² textile - 11 kg/m ²
Installation:	at floor level in a 15 × 30 × 3 mm L-frame or freely placed on the floor with a 45 mm wide tapered aluminium frame
Resistance:	maximum load 12.5 t/100 cm ² – the mat has a high load-bearing capacity, so is suitable for cars and forklifts, for example
Use:	entrance areas to hotels, banks, restaurants, office buildings, as well as family homes
