

TECHNICAL DATA SHEET - VICTORIA

Shag mat for wiping off dirt and water from shoes. Made from very durable polyamide fibre sealed into an impermeable base. This mat is designed for high foot traffic and heavily frequented entrances. It is highly resistant to sunlight and abrasions. We can also supply the Victoria mat in 50 × 50 cm tiles, which can be laid in any shape. Individual tiles can be replaced after normal wear and tear.

The mat can be used for emergency routes and is certified according to the EN 13501-1 standard. Classification: Bfl-s1
